Release Date: 18th of April 2016

London, UK, 2016 – sinnmusik* proudly welcomes back **Adrian** to their solid roster for 2016. Keeping true to his signature style he serves up four top cuts that light bass-bins and dance floors on fire. Rounding off a real smasher EP this offering features remixes by Mexican rising star **Sakro (La Vie En Rose / Housewax / Houseworx)** and **sinnmusik*** mainstay artists **Toefflinger, Georgi Barrel** and **Niclas Kannengiesser** (operating on this remix as **Niclas With Attitude**).

Starting with **'Brokebeat'**, a classic old-school vibrant swing builds in momentum as sharp, brisk hi-hats and punch-beats bring together a break-beat-house vibe. With a swift pace and a baseline that lags, the track is almost hard to enframe as a style, yet the snap of sounds and ever-playful tone he uses can and will bring the attention to any crowd.

Sakro injects **'Brokebeat'** even more energy, bringing in a propulsive and immersive club rhythm. Almost doubling up in sub-levels with double-punches, if anything this one is felt more intense than it's original brother.

With an airy start, **'In My Mind'** takes the listener on an atmospheric journey. A perfect series of flimsy notes and rhythmic tics still makes room for that punching bass **Adrian** is known so well for. A narcotic sounding voice preaches mid-way, masterfully building towards a euphoric setting perfect for any crowd to sway.

Niclas With Attitude (also known as **Niclas Kannengiesser** and **sinnmusik**s** very own **Georgi Barrel**) focus the attention of their remix on a more floor-friendly vibe, yet coat the track with an addictive twist of abstract notes, a popular experimental edge to the modern underground sound.

'Read My Lips' is compact featuring two versions fierce enough for the dance floors. Full of dubby fractured chords, ripples and wavy sirens the **'Verbal Assassin Mix'** is not shy to unveil the underground crew to be heard.

Reimagining differently, **Toefflinger** reworks the track to life enabling it to draw on an even wider audience. An even more buoyant phonic, the young artist really draws on the core piano phrasing to bring a soulful Spring sound perfect for any DJ bag in the coming months.
