**London, UK, 2017** – Brace yourself for another superb debut release on **sinnmusik\***! We are excited to welcome Swiss born **Nicolas Meyer**, to the label with his refined and carefully crafted '**Golconda EP**'.

Celebrating a fine run of releases on his own **Kaleido Records** as well as renowned **Hustler Trax** he is now up for release on May 1<sup>st</sup> with **sinnmusik\***.

**Nicolas** is a big analog and digital instrument enthusiast with extensive live performance experience as member of projects such as his own **Jam Briefing** and **Modulearth**.

His solo output conjures high quality grooves featuring real drums vs analog sequencers with warm intricate and deep soundscapes, clearly tinged across all of his four original cuts.

Rounding things off, the pack features an extended range of remixes on the title track by some of the finest in the game:

- UK based rising star **Danvers** dusts off his bass guitar and hits a few frets on his jammed-out & grooved-up interpretation.
- **James Benedict** punches into hyperdrive on his take of the original.
- **Georgi Barrel** doubles the heat for the deep and polishes it with chalky grooves and warm stabs.
- **J.Morrison** focused on tool elements of the track resulting in stripping it all back and keeping it straight to the point.

A beautiful masterpiece by **Nicolas Meyer** with unique creative flair and attitude. We hope you guys enjoy it as much as we do!

"This is House in its true form - a fine EP with a creative variety of grooves. The rythm and synth work in 'Golconda' is amazing, lovely chord loop which is translated well in the remixes but holds its own in the original. 'Planet Delu' has again some great synth work and 'Mille Raggi' has a very interesting vibe, akin to Mr Scruff meets Vibert. Cheers! "

Igor (Ibiza Sonica / Radio)

"yes. absolutely lovely release. feel all my suport- "
